In this presentation,  stands for KTM AG, which, as the owner of the KTM brand, manufactures and/or distributes motorbikes and motorbike accessories under this brand. To be distinguished from this is KTM Fahrrad GmbH, which, as the exclusive licensee, manufactures and/or sells bicycles and bicycle accessories under the KTM brand. KTM AG and KTM Fahrrad GmbH are neither affiliated with each other under corporate law nor intertwined with each other in terms of capital or otherwise. Consequently, PIERER Mobility Group, does not produce or distribute bicycles and bicycle accessories under the KTM brand but under brands such as Husqvarna, GASGAS or FELT.

**“To be
in POLE
POSITION”**

The Management of PIERER Mobility AG is committed to being the leader in the industry.

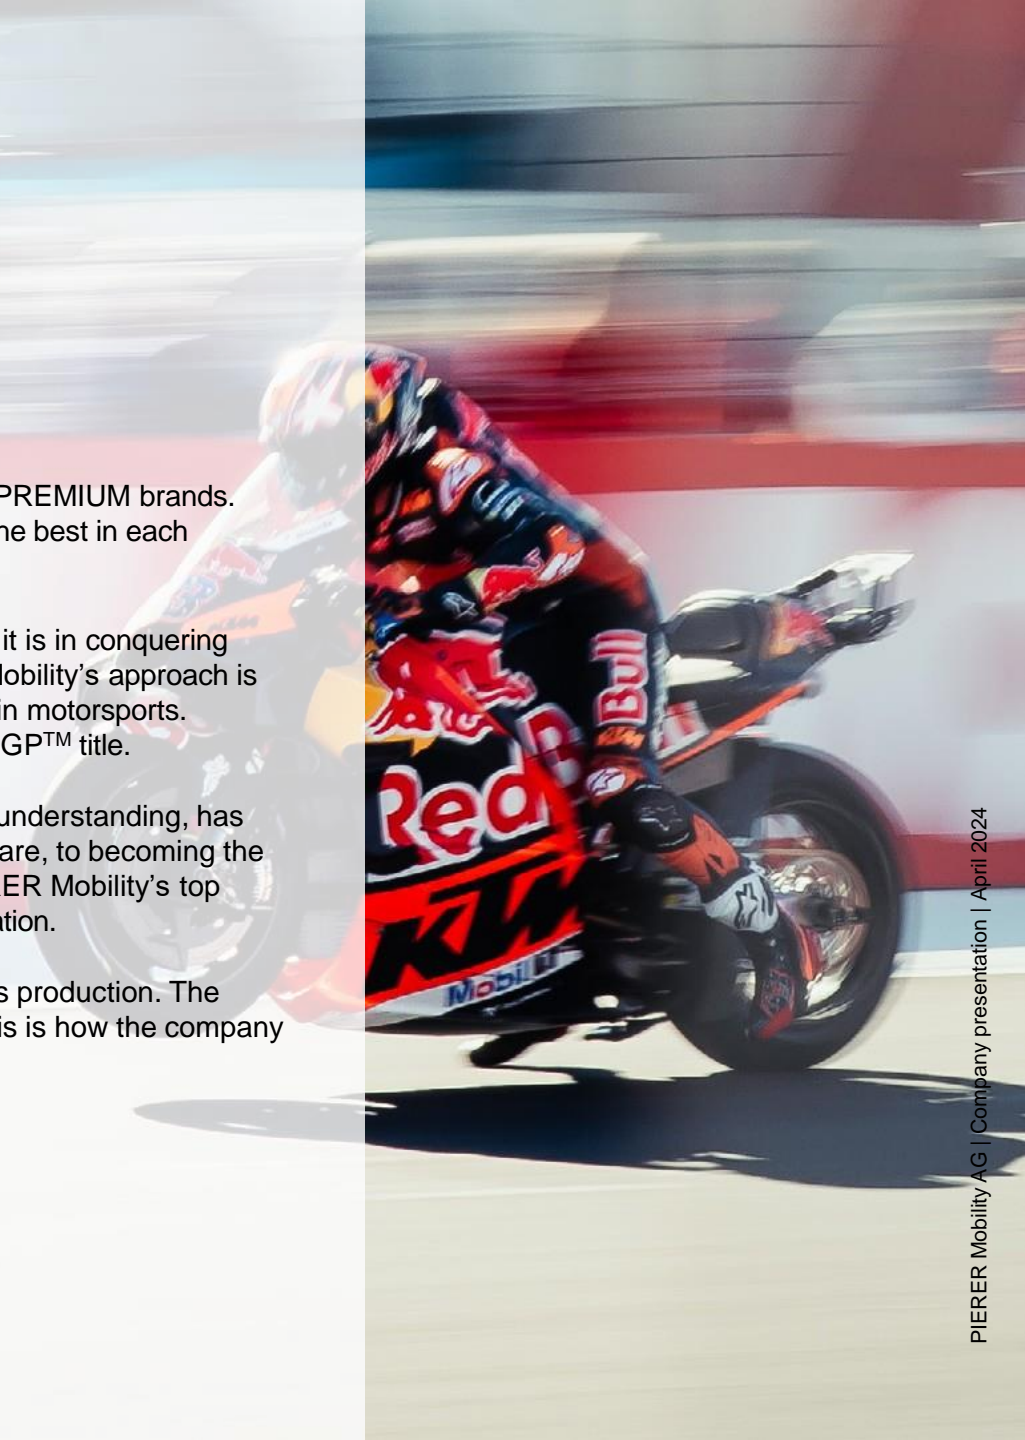

PREMIUM: All brands of PIERER Mobility AG are positioned as PREMIUM brands. We do not aim to be one of the many, but rather we strive to be the best in each and every segment we are in.

OBJECTIVES: The management sets clear objectives. Whether it is in conquering new segments, markets or through measurable KPI's. PIERER Mobility's approach is “performance and winning”. All brands have won countless titles in motorsports. One clear objective is to win the crown of motorsports – the MotoGP™ title.

LEADERHSIP within the market: Leadership, according to our understanding, has several dimensions: From leading market segments in which we are, to becoming the leader in technology within in the industry. The main duty of PIERER Mobility's top management is to lead with vision, clarity, transparency and motivation.

EARNINGS: PIERER Mobility is not driven by volumes and mass production. The clear focus is on quality, innovation, earnings and profitability. This is how the company will generate shareholder value in the future.

These are also the 4 Pillars of our success.

07. Appendix

1934
THE EARLY BEGINNING

The 25-year-old Hans Trunkenpolz founded a metal and car workshop in Mattighofen. A first approach to the founding of what is later known as KTM.

1953
START OF INDUSTRIAL PRODUCTION OF MOTORCYCLES

Company Name:
Kronreif – Trunkenpolz – Mattighofen

1992
NEW BEGINNINGS

In the beginning of 1992, Stefan Pierer and his Cross Industries company took over KTM and set about not only reviving the Austrian brand founded in 1953, but also taking it to new levels of success.

1994
TAKING IT TO THE STREETS

Based on the Enduro model, which is equipped with the successful LC4 engine, KTM unleashed the 620 DUKE and dared to hit the road in 1994.

2003
A NEW ADVENTURE

The brand established itself as a serious player in the Travel Enduro market with the arrival of its first multi-cylinder contender – the LC8-powered 950 ADVENTURE.

2011
SMALLER CAPACITIES – BIGGER OPPORTUNITIES

Since 2007, KTM has been cooperating with the Indian Bajaj Group to focus on the joint development of entry-level, 125 to 390 cc street motorcycles. In 2011 the new KTM 125 Duke was launched, the first small capacity naked bike of KTM produced in India – opening up a new successful era of entry-level naked bikes at KTM.

2014
HUSQVARNA MOTORCYCLES

When the KTM GROUP acquired the Husqvarna license in early 2013, it was reunited with Husaberg and relaunched as the newly revived 'Husqvarna Motorcycles' brand. 2014 was the first complete business year for the "reborn" Husqvarna Motorcycles. In November 2014 Husqvarna Motorcycles unveiled the VITPILEN 401 and SVARTPILEN 401 concept bikes at the EICMA international motorcycle exhibition, boldly announcing their imminent return to street motorcycle production.

2015
KTM GOES ELECTRIC

With the release of the innovative KTM Freeride E-SX, E-XC and E-SM in 2015, the leader of offroad motorcycling has also set new standards for electric motorcycles. Even without the power of internal combustion engines, these bikes consistently follow the READY TO RACE mantra, offering quality components and top performance all round.

2016
MOTOGP™ DEBUT

First presence of the KTM MotoGP™ machine at the Red Bull Ring in Spielberg.

2018
E-MOBILITY

Drawing on their rich history in top-level motocross competition, in 2018 Husqvarna Motorcycles took a bold new step into the fast-paced world of e-mobility with the launch of their EE 5 electric mini MX racer. In 2018, Husqvarna E-Bicycles launched its first limited portfolio, which was expanded to a full line-up in 2019.

2020
STRENGTHENED COOPERATION WITH CF MOTO

The joint venture with CFMOTO was further strengthened to serve the increasing market demand primarily in China and globally, by producing the new mid-class series (750 cc) in the newly built factory of the Chinese joint venture in Hangzhou

2020
GASGAS

GASGAS joined PIERER Mobility AG as the third brand in the offroad segment (trial segment). Building upon its strong heritage and expertise in the offroad disciplines, while enjoying the added benefit and credibility of the Group's proven performance basis, dealer network, and distribution platform, the brand launched its full offroad line-up with no less than 19 brand new models including enduro, motocross, cross country and trial. Each one purpose built to excel and with an incredibly vibrant appearance.

2021
NEW E-MOBILITY RESEARCH & DEVELOPMENT CENTER

JOINT VENTURE WITH MAXCOM

PIERER Mobility AG invested €20M in a dedicated 20,000 square meter e-mobility competence center. This cutting-edge facility became home to 400 employees and was situated alongside the innovative KISKA design studio in Anif, Salzburg, Austria.

PIERER Mobility AG and Maxcom Ltd. formed a joint venture for expansion of the bicycle and E-Bike production capacity in Europe with a total investment volume of EUR 90 million. A state-of-the-art e-bike production facility is being built on an area of 130,000 m². The annual production capacity will be around 350,000 pieces.

2022
MV AGUSTA

PIERER Mobility AG and Maxcom Ltd. formed a joint venture for expansion of the bicycle and E-Bike production capacity in Europe with a total investment volume of EUR 90 million. A state-of-the-art e-bike production facility is being built on an area of 130,000 m². The annual production capacity will be around 350,000 pieces.

In November 2022, KTM AG, a subsidiary of PIERER Mobility AG, by way of a capital increase acquired a 25.1% stake in MV Agusta Motor S.p.A., based in Varese (Italy). As part of this cooperation, KTM AG took over the supply chain and purchasing for MV Agusta in October 2023. In addition, MV Agusta's product range is distributed through PIERER Mobility's worldwide sales network. The call option granted to KTM AG on the basis of the annual financial statements as of December 31, 2025 to acquire a majority stake in MV Agusta will be exercised in spring 2026.

KTM

The racing brand
with extreme performance

**READY
TO
RACE**

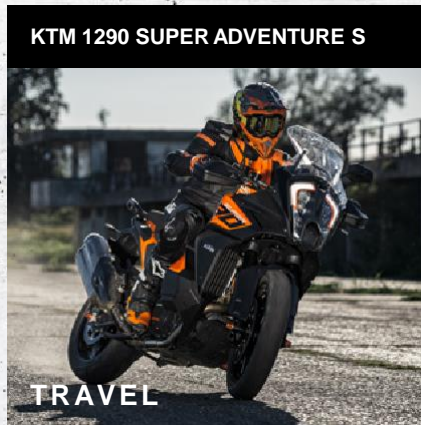

KTM is the cornerstone of the PIERER Mobility Group, and the basis for the company's approach to the constant technological changes and shifting trends in society and transportation. KTM, as a brand, is still powered by a defining READY TO RACE mentality that underpins the products, the attitude and the vision of the future. KTM is Europe's undisputed leading high-performance street and offroad sport motorcycle manufacturer. 341 World Championship titles (and counting) have been celebrated in 70 years of existence. This acclaim and relentlessness is the ultimate proof of KTM's irrefutable racing mantra. The brand's remarkable achievements on the global stage are reflected in every vehicle it creates. KTM has progressed to become one of the world's most innovative manufacturers of offroad and street motorcycles

The Pioneering Brand with Smart Performance

With its Swedish roots and unrelenting spirit, the Husqvarna Motorcycles brand has been building premium street and offroad motorcycles for more than a century. It is a revitalized brand with a rich heritage. As a brand, Husqvarna Motorcycles is focused on developing distinct products that harness functional simplicity, premium quality materials, and stylish design to deliver a unique riding experience centered on the essence of the ride itself.

By stripping away all of the unnecessary, Husqvarna Motorcycles aims to provide an honest, appealing, and accessible riding experience to a broader range of potential riders.

GASGAS

The vibrant playful brand with inviting performance

Born in the mid-1980s, GASGAS quickly became a central player in the trial world. Developing a reputation for innovative, specialized, and highly developed machinery, it has secured no fewer than 15 FIM trial world titles. Expanding into the enduro sector in the early 1990s, GASGAS used its technical and specialist knowledge to quickly establish a global reputation for competitive, user-friendly, enduro motorcycles.

Acquired by PIERER Mobility AG in late 2019, GASGAS now benefits from the Group's state-of-the-art manufacturing facilities, world-leading Research & Development centers, specialist marketing knowledge, as well as its hugely successful motorsports facility.

With a growing product line-up that includes motocross, mini motocross, enduro, trial, rally, cross-country, electric balance bikes, e-bicycles, and big-bore street motorcycles, today no other brand offers such a diverse range of dirt bikes as GASGAS. On track, GASGAS is a leading brand in numerous FIM world championships.

MV Agusta

Luxury sport motorcycle brand
made in Italy since 1945

We do not simply build motorcycles, we craft emotions

MV Agusta is one of the world's leading premium motorcycles manufacturers. Based in Varese, in Northern Italy, it crafts legendary racetrack-derived bikes. Iconic design and class-leading performance through advanced technologies and materials make MV Agusta motorcycles admired the world over and celebrated as unique pieces of Motorcycle Art. Since 1945, the brand has evolved to become a point of reference in the industry, having won 37 World Championship titles. A record still undisputed. PIERER Mobility holds a 50.1% stake in the Italian premium motorcycle manufacturer MV Agusta.

Innovation – The future of PTWs

Right vehicle, right place, right energy carrier

Openness to different technologies

E-Drive

- Urban environments with rather limited speed and short distance – can benefit from **electric powertrains**.
- For vehicles up to around 250ccm, we will continue to develop a variety of products with **low-voltage electric drives** (48-volt)
- Member of Swappable Battery Motorcycle Consortium (SBMC) to accelerate the development and deployment of swappable battery systems and technical standards towards open standardization

E-Fuels

- In market segments that are difficult to electrify, it needs other approaches to finding solutions based on **combustion engines**
- For vehicles as of 250ccm, with higher performance and distance requirements, electrification – apart from a few niche products – is not a suitable mass alternative; lack of energy density
- **E-fuels** can be a gamechanger for operating existing fleets in a carbon-neutral way generating efficiency advantages in new engines (e.g., reduction of fuel consumption)

Product development

Competence centers: ~1,300 employees, over 47,000 m²

Research & Development center (Mattighofen & Munderfing, Austria)

Design, development and testing of ICE powered vehicles, design engineering of components (E/E, metal structures, plastic) and suspension components, prototype production facilities for exhaust and frame components

KISKA design studios & E-Mobility research & development center (Anif, Austria & Munich, Germany)

Product development, engineering, design and SPM, e-drivetrain and e-products

CERO Research & Development center (Barcelona, Spain)

Value creation through sustainability

Sustainability highlights 2023

Key figures

<p>195 €M Invested in product development</p>	<p>80.1 G/KM Fleet emissions¹⁾</p>	<p>21.6% Unit sales Electrified Two-Wheelers²⁾</p>	<p>3.9 €M Invested in further education of employees</p>	<p>11.3 Lost Time Frequency Injury rate³⁾</p>
<p>84% Procurement volume within europe for series production</p>	<p>27.3 €M Invested in alternative drive technologies</p>	<p>Compliance cases, incidents with fine or penalty after recalls 0</p>	<p>99.7% Renewable energy share⁴⁾</p>	<p>82% Suppliers reviewed⁵⁾</p>

Values rounded. ¹⁾ Reduction in energy demand for products (motorcycles, excl. e-bicycles): Ø Emission in g/km; ²⁾ Calculated from the units of e-motorcycles, e-bicycles and electric balance bikes sold (number of units). ³⁾ Rate excl. temporary workers; The LTIFR is the number of lost-time injuries (of at least one workday) per million hours worked. ⁴⁾ Electricity and district heating at the main company and production sites of KTM AG and PIERER Mobility AG in Austria. ⁵⁾ Proportion of series suppliers (Tier 1) assessed via the SupplierAssurance platform using SAQ.

Sustainability activities and goals

Main topics and measures 2023

- Adaption of the **main topics**: Closer affiliation with the new EU standards (ESRS)
- **Taxonomy reporting**: New assessment methodology for calculation of the key ratios (revenue, CapEx, OpEx); Implementation of a **climate risk and vulnerability analysis**
- Energy Ring: Increased use of renewable **solar power**
- Research and development to produce environmentally friendly PTWs
- Integration of **transport emissions** (inbound and outbound logistics) into the Scope 3
- Further development of the evaluation by product group (**materials used**)

Goals for 2024 and beyond

- Define and set **CO2 targets for 2030** (Scope 1-3)
- Expand the CSR risk assessment in the supply chain
- Implement **health and safety** software
- Further **reduce** the amount of **packaging**
- Expand the database for recording greenhouse gas emissions in the supply chain
- Define a joint **electric-platform strategy**:
 - with Bajaj Auto in the low-voltage range (<60 volts, 11 kW power)
 - with CFMOTO in the low-voltage range (<60 volts) and high-voltage range (>60 volts)
 - develop key technologies for battery-powered motorcycles for niche applications (>20 kW)
